SECTION VII PREVENTATIVE MEASURES

Respiratory Protection: Wear a properly fitted NIOSH/MSHA approved respirator whenever exposure to vapor/mist is likely unless level is below applicable limits.
Ventilation:
Local Exhaust: Recommended when appropriate to control employee exposure.
Mechanical: Not recommended as sole means of controlling exposure.
Protective Gloves: For operations with contact wear impervious gloves (neoprene).
Eye Protection:
Other Protective Equipment: For operations with contact aprons and rubber foot covering are recommended. Safety shower and eye wash facility should be available.
Leaks or Spill Procedures: Dike spill: absorb with inert material and dispose. Flush area with water. Prevent washing from entering waterways.

Precautions for Handling and Storage: Avoid contamination of skin. Discard contaminated shoes. Wash clothing.

SECTION VIII CONTROL MEASURES/PROTECTION INFORMATION

Emergency and First Aid Procedures:
Eyes: Flush with plenty of water for at least 15 minutes and seek medical attention.
Skin contact: Remove clothing and wash contact area with soap and water for 15 minutes.
Ingestion: If appreciable quantities are swallowed seek medical attention.
Inhalation: If exposed to high concentration of vapor or mist, remove person to fresh air. If breathing has stopped, give artificial respiration and seek medical attention.
